Madweave tetrahedron · offset (3,0) · sixfold centers

Edge 40 mm · 4 faces · one paper piece · 3 folds · 3 tape pairs

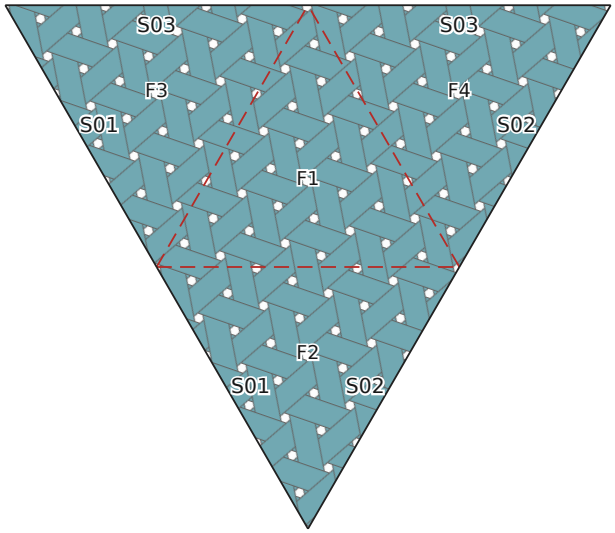

Cut the solid outside outline. Score and fold dashed red lines away from the patterned side. Tape matching S labels together from inside; keep the final seam accessible. No tabs to cut.

Print at 100% / actual size. The line below must measure 40 mm. Interior dihedral: 70.53°. Pattern opening: small hexagon.

Madweave tetrahedron · offset (2,1) · sixfold centers

Edge 40 mm · 4 faces · one paper piece · 3 folds · 3 tape pairs

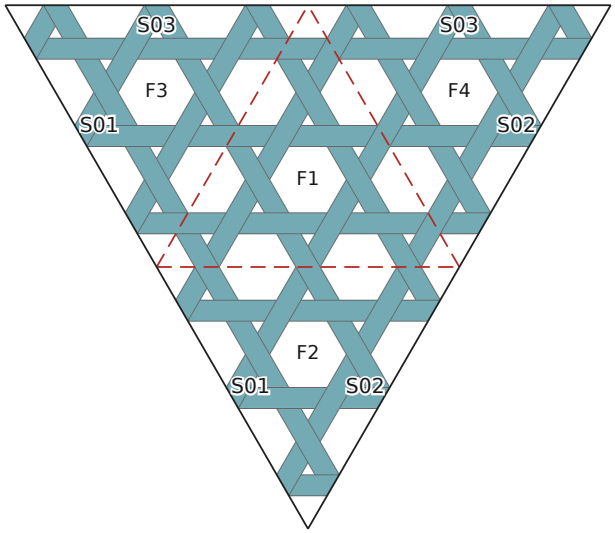

Cut the solid outside outline. Score and fold dashed red lines away from the patterned side. Tape matching S labels together from inside; keep the final seam accessible. No tabs to cut.

Print at 100% / actual size. The line below must measure 40 mm. Interior dihedral: 70.53°. Pattern opening: small hexagon.

Hexweave tetrahedron · offset (3,0) · sixfold centers

Edge 40 mm · 4 faces · one paper piece · 3 folds · 3 tape pairs

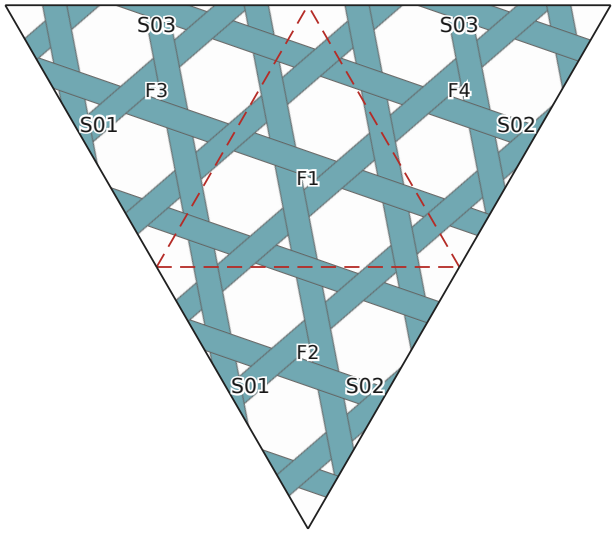

Cut the solid outside outline. Score and fold dashed red lines away from the patterned side. Tape matching S labels together from inside; keep the final seam accessible. No tabs to cut.

Print at 100% / actual size. The line below must measure 40 mm. Interior dihedral: 70.53°. Pattern opening: large hexagon.

Hexweave tetrahedron · offset (2,1) · sixfold centers

Edge 40 mm · 4 faces · one paper piece · 3 folds · 3 tape pairs

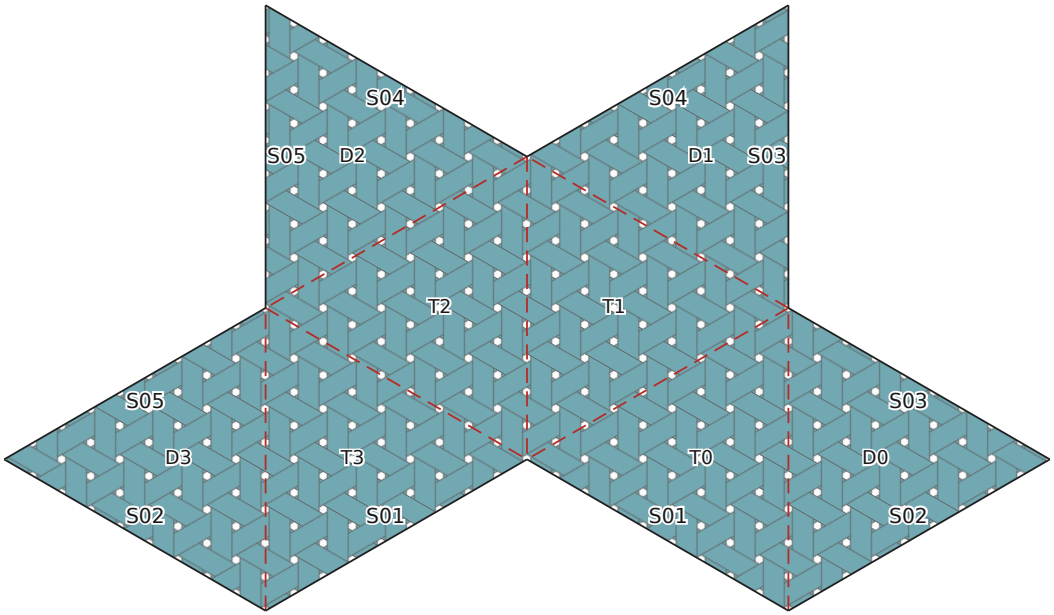

Cut the solid outside outline. Score and fold dashed red lines away from the patterned side. Tape matching S labels together from inside; keep the final seam accessible. No tabs to cut.

Print at 100% / actual size. The line below must measure 40 mm. Interior dihedral: 70.53°. Pattern opening: large hexagon.

Madweave octahedron · offset (3,0) · sixfold centers

Edge 40 mm · 8 faces · one paper piece · 7 folds · 5 tape pairs

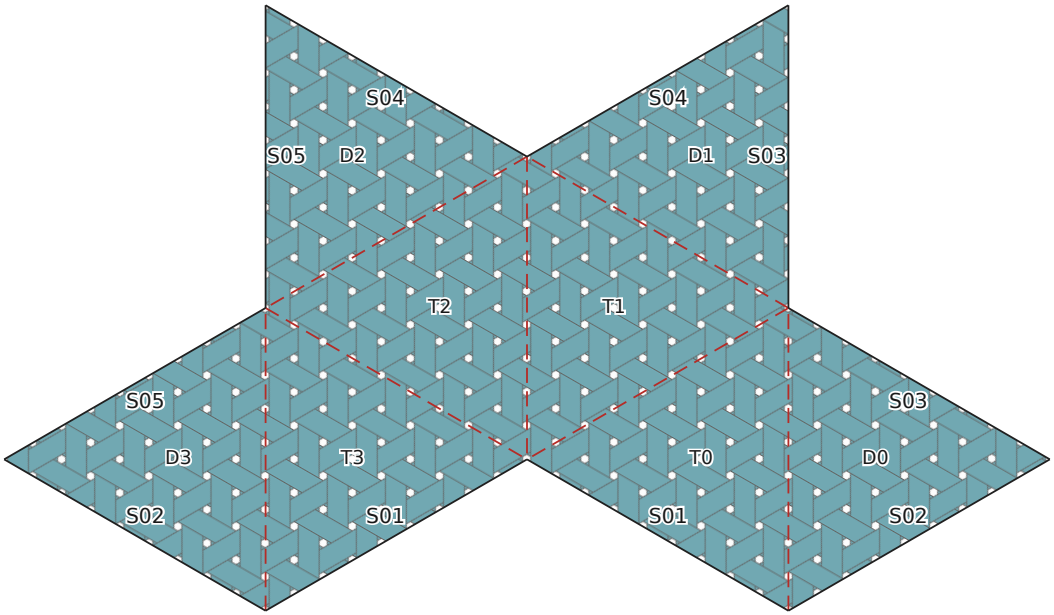

Cut the solid outside outline. Score and fold dashed red lines away from the patterned side. Tape matching S labels together from inside; keep the final seam accessible. No tabs to cut.

Print at 100% / actual size. The line below must measure 40 mm. Interior dihedral: 109.47°. Pattern opening: small hexagon.

Madweave octahedron · offset (3,0) · threefold centers

Edge 40 mm · 8 faces · one paper piece · 7 folds · 5 tape pairs

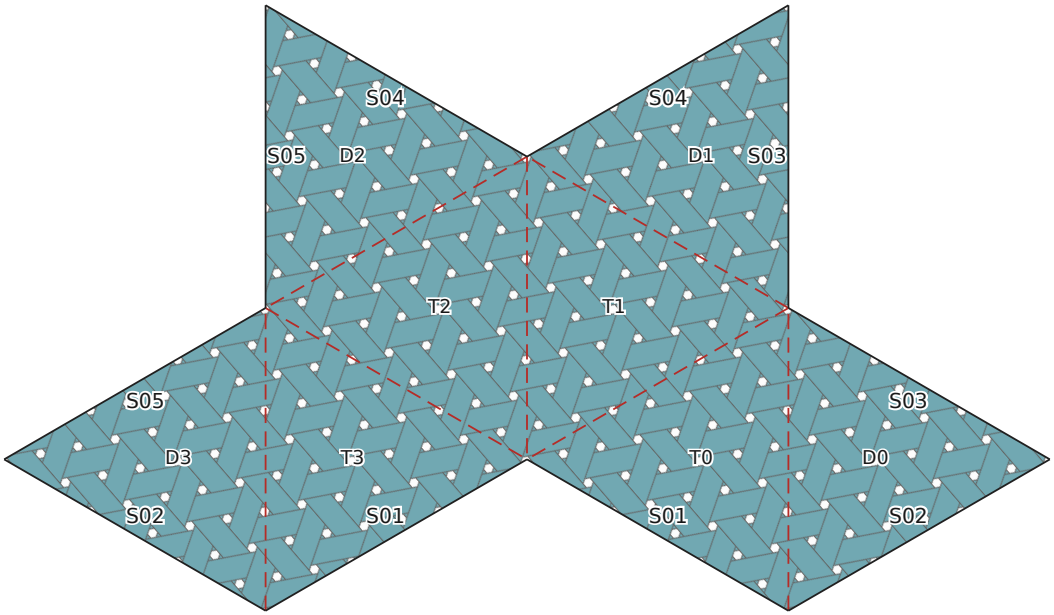

Cut the solid outside outline. Score and fold dashed red lines away from the patterned side. Tape matching S labels together from inside; keep the final seam accessible. No tabs to cut.

Print at 100% / actual size. The line below must measure 40 mm. Interior dihedral: 109.47°. Pattern opening: small hexagon.

Madweave octahedron · offset (2,1) · sixfold centers

Edge 40 mm · 8 faces · one paper piece · 7 folds · 5 tape pairs

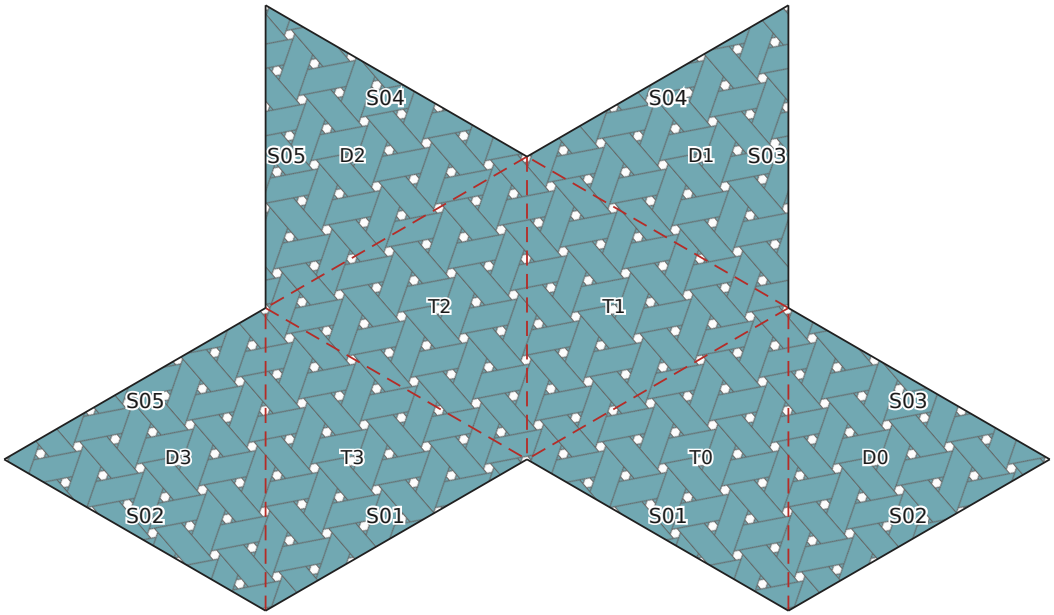

Cut the solid outside outline. Score and fold dashed red lines away from the patterned side. Tape matching S labels together from inside; keep the final seam accessible. No tabs to cut.

Print at 100% / actual size. The line below must measure 40 mm. Interior dihedral: 109.47°. Pattern opening: small hexagon.

Madweave octahedron · offset (2,1) · threefold centers

Edge 40 mm · 8 faces · one paper piece · 7 folds · 5 tape pairs

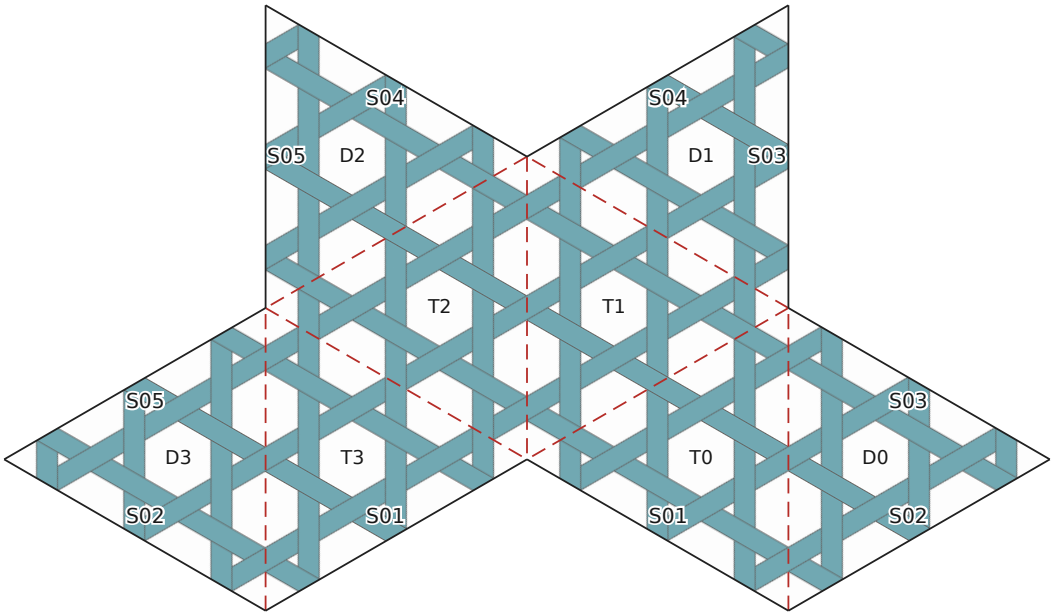

Cut the solid outside outline. Score and fold dashed red lines away from the patterned side. Tape matching S labels together from inside; keep the final seam accessible. No tabs to cut.

Print at 100% / actual size. The line below must measure 40 mm. Interior dihedral: 109.47°. Pattern opening: small hexagon.

Hexweave octahedron · offset (3,0) · sixfold centers

Edge 40 mm · 8 faces · one paper piece · 7 folds · 5 tape pairs

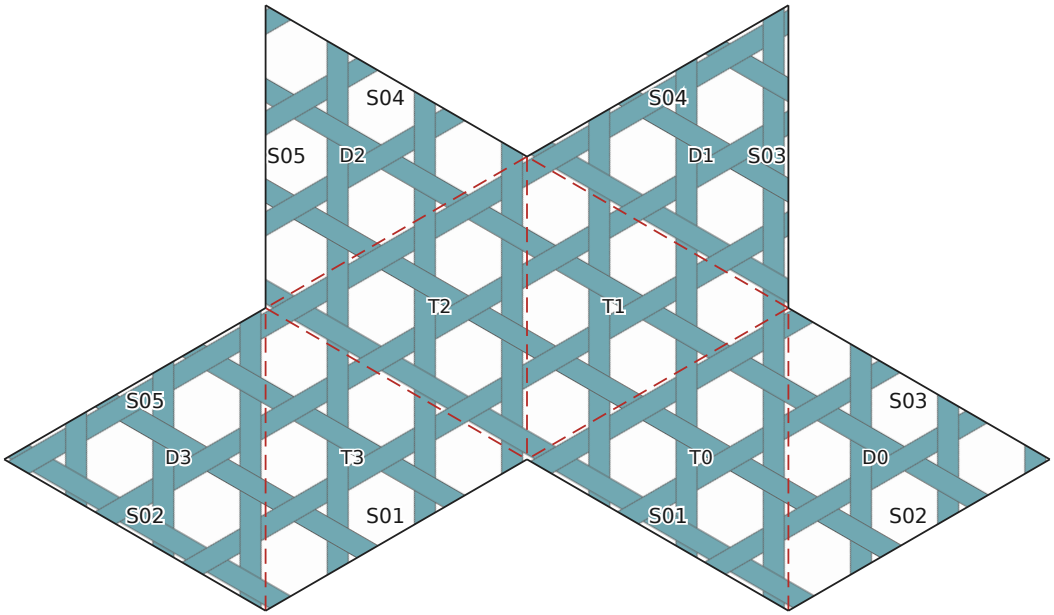

Cut the solid outside outline. Score and fold dashed red lines away from the patterned side. Tape matching S labels together from inside; keep the final seam accessible. No tabs to cut.

Print at 100% / actual size. The line below must measure 40 mm. Interior dihedral: 109.47°. Pattern opening: large hexagon.

Hexweave octahedron · offset (3,0) · threefold centers

Edge 40 mm · 8 faces · one paper piece · 7 folds · 5 tape pairs

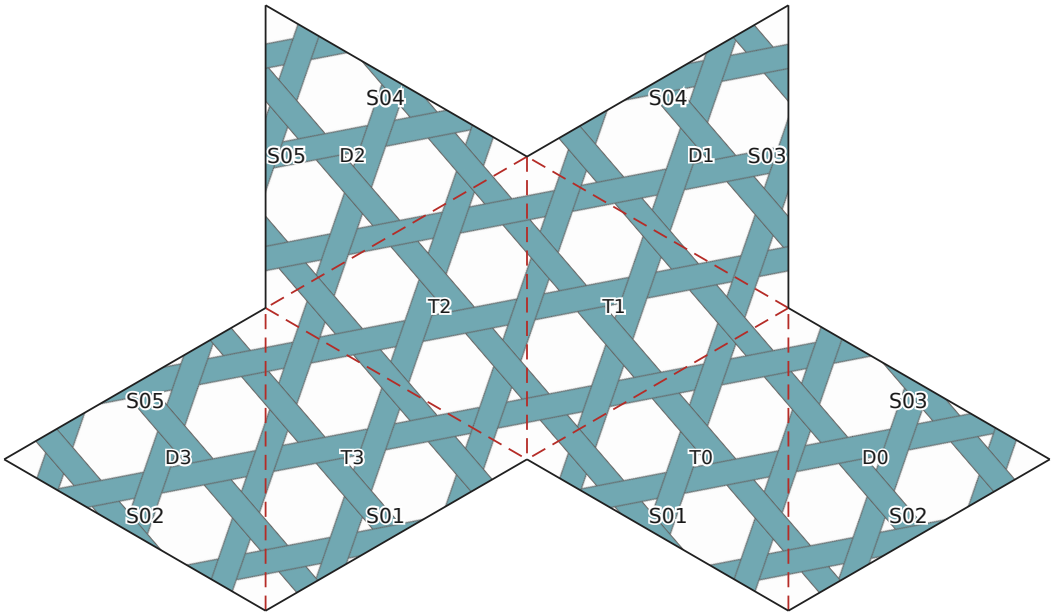

Cut the solid outside outline. Score and fold dashed red lines away from the patterned side. Tape matching S labels together from inside; keep the final seam accessible. No tabs to cut.

Print at 100% / actual size. The line below must measure 40 mm. Interior dihedral: 109.47°. Pattern opening: triangle -y.

Hexweave octahedron · offset (2,1) · sixfold centers

Edge 40 mm · 8 faces · one paper piece · 7 folds · 5 tape pairs

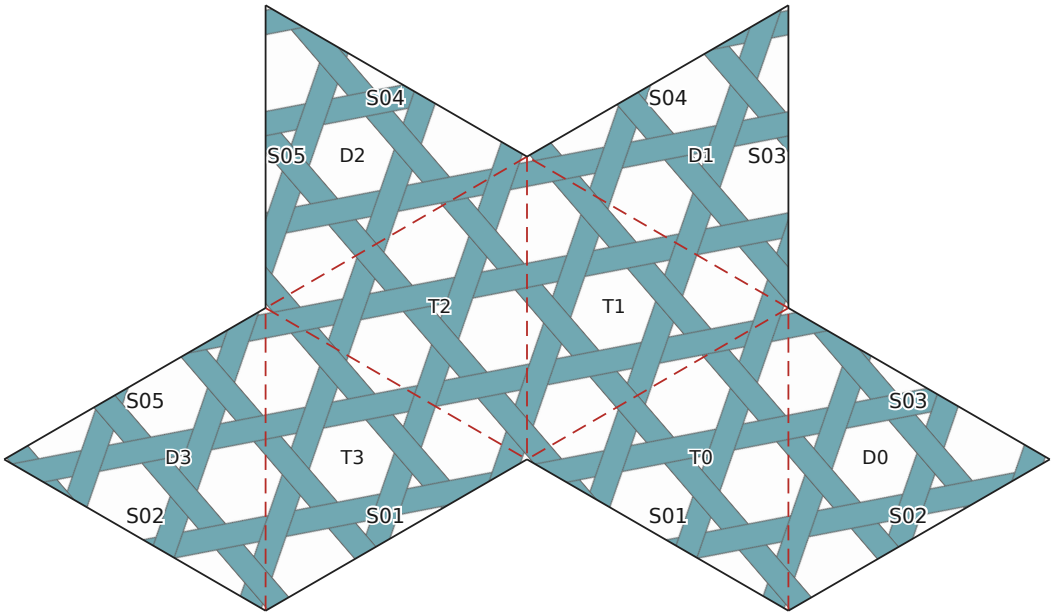

Cut the solid outside outline. Score and fold dashed red lines away from the patterned side. Tape matching S labels together from inside; keep the final seam accessible. No tabs to cut.

Print at 100% / actual size. The line below must measure 40 mm. Interior dihedral: 109.47°. Pattern opening: large hexagon.

Hexweave octahedron · offset (2,1) · threefold centers

Edge 40 mm · 8 faces · one paper piece · 7 folds · 5 tape pairs

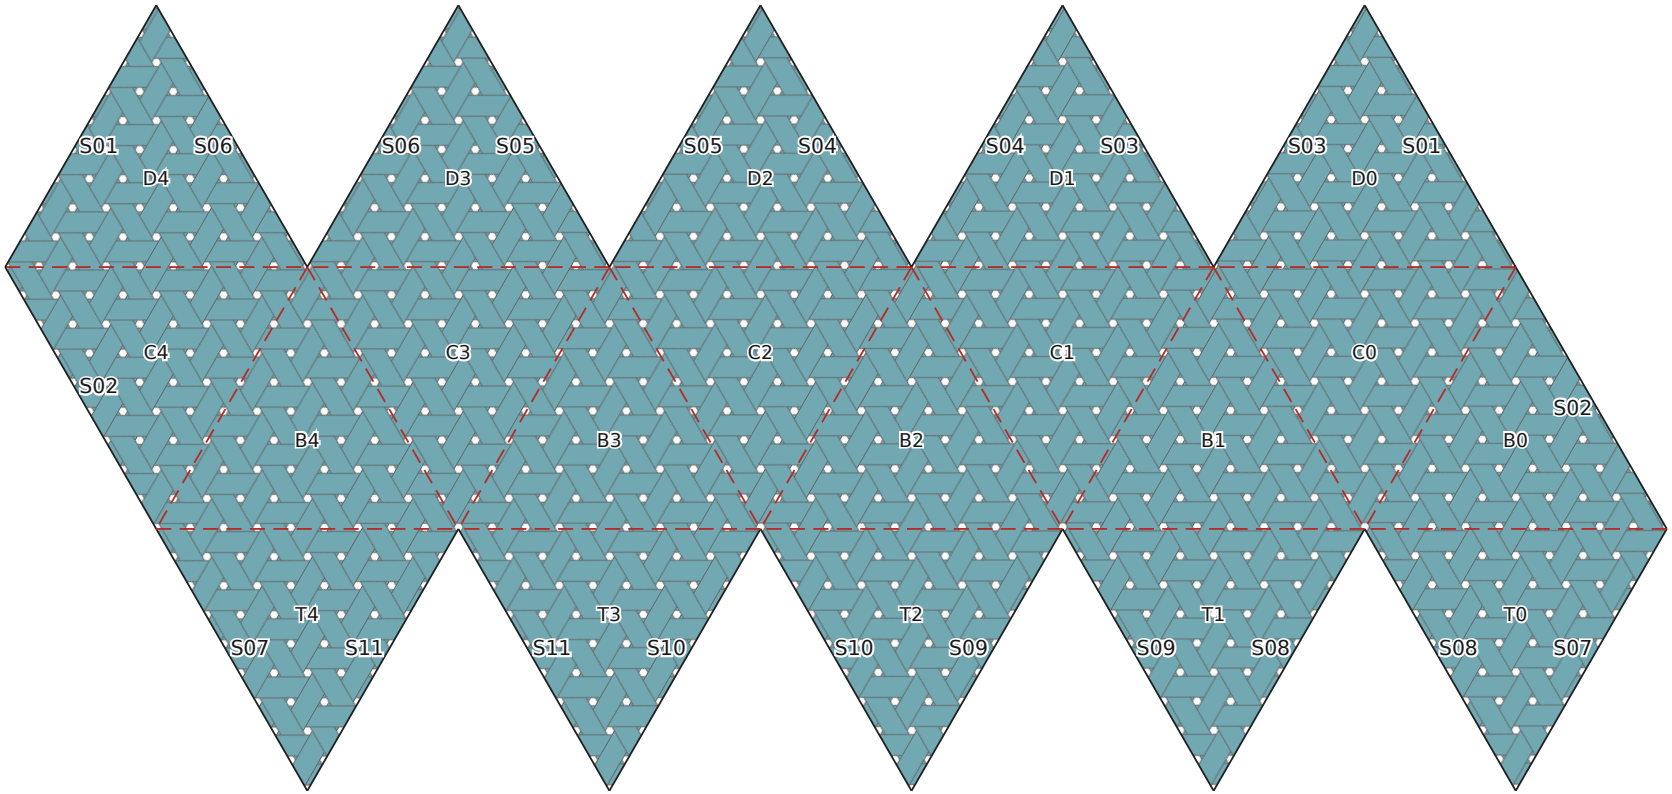

Cut the solid outside outline. Score and fold dashed red lines away from the patterned side. Tape matching S labels together from inside; keep the final seam accessible. No tabs to cut.

Print at 100% / actual size. The line below must measure 40 mm. Interior dihedral: 109.47°. Pattern opening: triangle -y.

Madweave icosahedron · offset (3,0) · sixfold centers

Edge 40 mm · 20 faces · one paper piece · 19 folds · 11 tape pairs

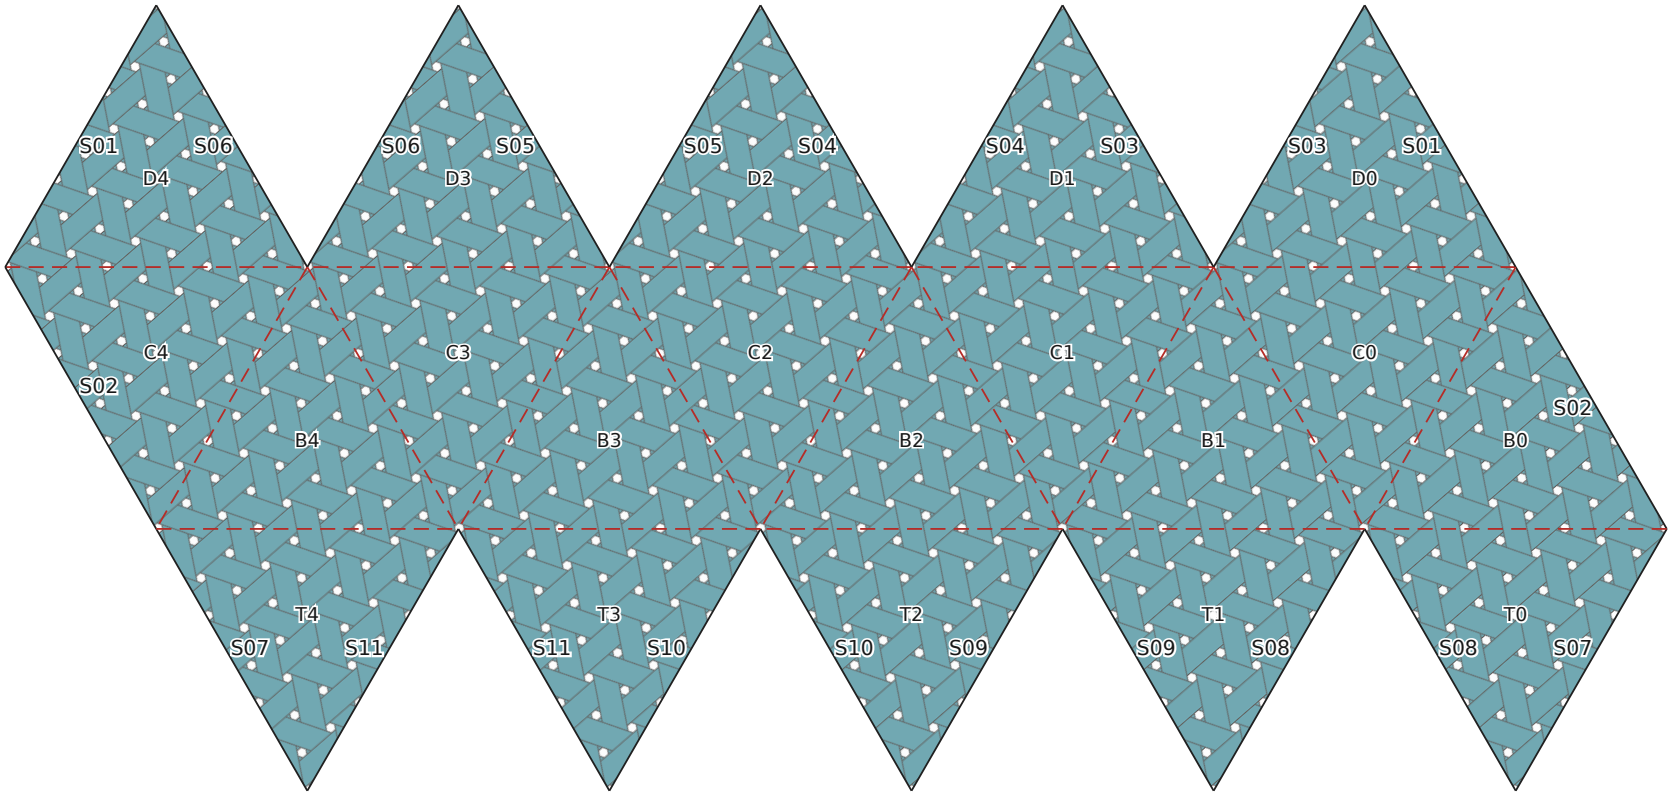

Cut the solid outside outline. Score and fold dashed red lines away from the patterned side. Tape matching S labels together from inside; keep the final seam accessible. No tabs to cut.

Print at 100% / actual size. The line below must measure 40 mm. Interior dihedral: 138.19°. Pattern opening: small hexagon.

Madweave icosahedron · offset (2,1) · sixfold centers

Edge 40 mm · 20 faces · one paper piece · 19 folds · 11 tape pairs

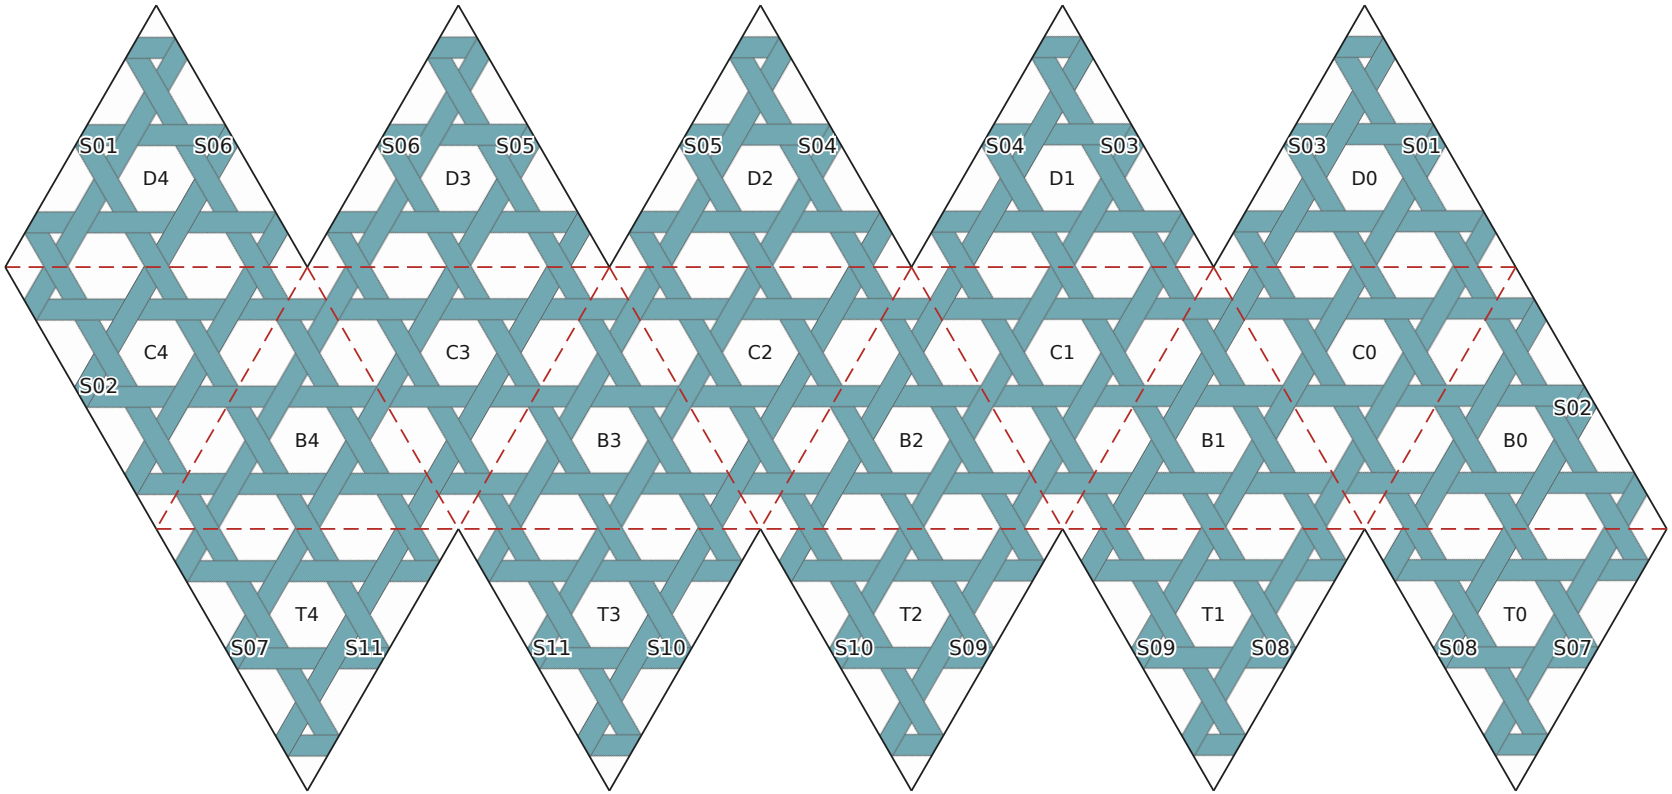

Cut the solid outside outline. Score and fold dashed red lines away from the patterned side. Tape matching S labels together from inside; keep the final seam accessible. No tabs to cut.

Print at 100% / actual size. The line below must measure 40 mm. Interior dihedral: 138.19°. Pattern opening: small hexagon.

Hexweave icosahedron · offset (3,0) · sixfold centers

Edge 40 mm · 20 faces · one paper piece · 19 folds · 11 tape pairs

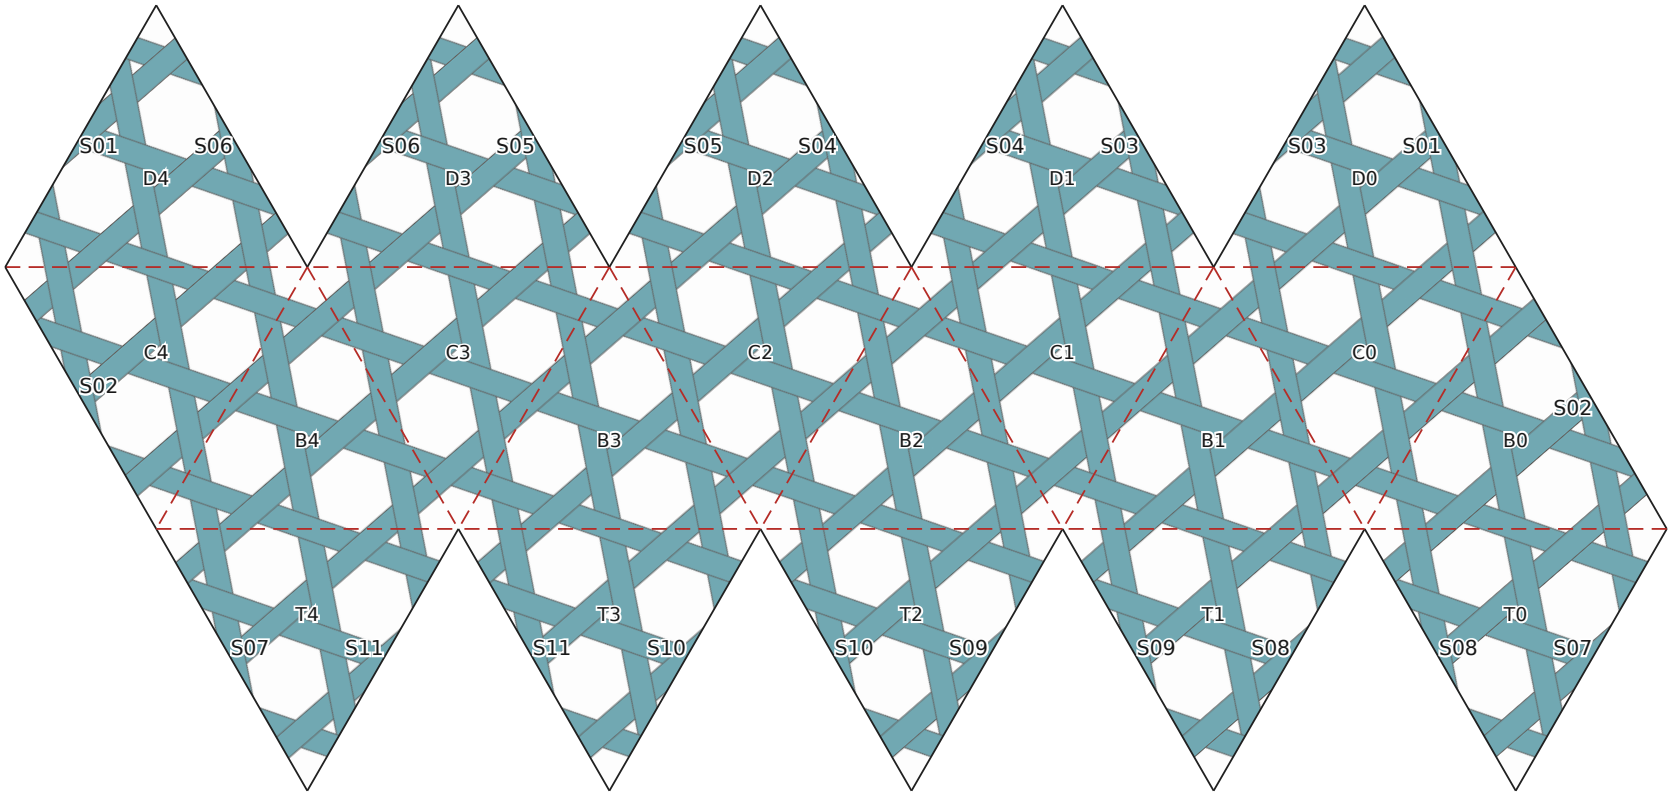

Cut the solid outside outline. Score and fold dashed red lines away from the patterned side. Tape matching S labels together from inside; keep the final seam accessible. No tabs to cut.

Print at 100% / actual size. The line below must measure 40 mm. Interior dihedral: 138.19°. Pattern opening: large hexagon.

Hexweave icosahedron · offset (2,1) · sixfold centers

Edge 40 mm · 20 faces · one paper piece · 19 folds · 11 tape pairs

Cut the solid outside outline. Score and fold dashed red lines away from the patterned side. Tape matching S labels together from inside; keep the final seam accessible. No tabs to cut.

Print at 100% / actual size. The line below must measure 40 mm. Interior dihedral: 138.19°. Pattern opening: large hexagon.
